- Committee Meeting Schedule
General Information

Continuing Medical Education

The American Society of Dermatopathology is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians. The American Society of Dermatopathology designates this live activity for a maximum of 35 AMA PRA Category 1 Credits™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Continuing Medical Education Policy

The American Society of Dermatopathology (ASDP) is accredited by the Accreditation Council for Continuing Medical Education (ACCME). As such, we are required to meet the ACCME’s expectations for our practice of continuing medical education.

It is the policy of the ASDP to ensure balance, independence, objectivity and scientific rigor in all of its educational activities. Faculty participating in and planning the Annual Meeting must comply with all procedures governing disclosure. The ASDP has implemented a process where everyone in a position to control the content of an educational activity will present evidence-based content, disclose all relevant financial relationships with any commercial interest and discussion of unlabeled/investigational uses of a commercial product. In addition, presentations must be free of commercial bias and any information regarding commercial products/services must be based on scientific methods generally accepted by the medical community. Conflicts were resolved prior to this educational activity. Faculty who refused to disclose relevant financial relationships and discussion of unlabeled/investigational uses of a commercial product would have been disqualified from participating in the planning and implementation of this CME activity.

Presenters who qualified for the implementation of this activity are required to disclose to the audience verbally and in writing, immediately prior to the scientific presentation, any of the relationships mentioned above. Faculty relationships are also disclosed in this program book.

CME Claims and Verification of Attendance

Important! Attendees will be able to claim their CME credits online via the ASDP website after the meeting. You must submit your CME credit online in order to receive appropriate CME credit. The number of CME credit available for each course is indicated by the course title in this program and on the online CME submission site. A CME Tracker is included in this book on page 95. An official CME certificate will be available to print immediately after completing the online CME claim form and evaluation. Paper certificates will not be mailed.

Appropriate credit for attendance should be ascertained and reported by individual physicians to the particular state or medical society to which he/she belongs.
CC/MOC Claims and Verification

CC/MOC credit for the Self-Assessment in Dermatopathology sessions will not be included on the Annual Meeting CME Certificates. Participants must complete the post-course online self-assessment with a score of 60 percent or better in order to claim CC/MOC credit for Self-Assessment in Dermatopathology. A CC/MOC certificate will be available to print upon successful completion of the post-course online self-assessment.

Evaluations

Session evaluations will be accessible online daily and will open as soon as an individual session ends. Once the session evaluations are completed, attendees will then be able to complete the overall meeting evaluation and print a CME certificate. The meeting evaluation will close four weeks after the meeting has concluded.

Learning Objectives

The educational mission of the ASDP is to teach, aid in the dissemination of knowledge and encourage research to improve the quality of the practice of dermatopathology. The annual meeting is primarily an educational one, offering members, fellows, residents and medical students lectures on current topics in dermatopathology, interactive sessions at the microscope, a self-assessment course, and opportunities for poster and abstract presentations.

After attending the 2019 Annual Meeting, participants should be able to:

➤ Diagnose a wide spectrum of tumors and dermatoses.
➤ Diagnose a wide range of inflammatory and neoplastic entities in dermatopathology.
➤ Recognize pitfalls in diagnostic dermatopathology and develop methods to avoid them.
➤ Gain insights into the importance of time management and mentoring in a successful dermatopathology career.
➤ Identify ethical and professional conundrums in dermatopathology practice and ways to address them.
➤ Examine practical clues and techniques for solving a variety of dermatopathologic diagnostic quandaries.
➤ Review important concepts in the diagnosis of mucocutaneous diseases.
➤ Explore updated basic science aspects of immunobullous disease.
➤ Compare diagnostic approaches to challenging cases with colleagues and experts.
➤ Recognize how emerging technologies can affect the dermatopathology practice now and in the future.
➤ Integrate innovative information regarding the diagnosis classification of melanocytic neoplasms into your practice.
➤ Apply updated AJCC criteria and evidence-based guidelines to optimize cost-effective care.
ACGME Competencies

The ASDP 56th Annual Meeting is designed to meet the following Accreditation Council of Graduate Medical Education competencies:

- Employ Evidence-based Practice
- Interpersonal and Communication Skills
- Medical Knowledge
- Patient Care
- Practice-based Learning and Improvement
- Professionalism
- Quality Improvement
- Systems-based Practice
Poster Presentations
Seaport Ballroom F-H, 2nd Level, Seaport Tower

1.5 AMA PRA Category 1 Credits™
Participants will earn .75 AMA PRA Category 1 Credit™ for each Poster Defense Session attended.

Basic research, practical techniques and new clinical or histopathologic entities will be presented in this traditional and popular format. Posters will be on display in two poster sessions Thursday afternoon through Sunday morning. Residents and fellows-in-training are eligible for the ASDP Physician-in-Training Awards. Award recipients will be notified by email after the meeting. See the Program-at-a-Glance for detailed Poster Session 1 and 2 schedules.

Poster Session 1 Viewing
Opens at 1 p.m. Thursday, October 17, until 5 p.m. Friday, October 18

Poster Session 2 Viewing
Opens at 8 a.m. Saturday, October 19, until 11 a.m. Sunday, October 20

Poster Defense Sessions
The poster defense sessions will provide an opportunity for discussion between poster presenters and attendees. Poster presenters are asked to make every effort to be at their poster during the defense sessions.

Poster Session 1 Defense:
Friday, October 18
3:45 p.m. – 4:30 p.m.

Poster Session 2 Defense:
Saturday, October 19
10:00 a.m. – 10:45 a.m.

After attending the Poster Defense Sessions, participants should be able to:
➔ Identify practical techniques in dermatopathology.
➔ Name new clinical or histopathological entities.
Slide Library

Opens Friday, October 18, at 2 p.m.
Balboa A–C, 2nd Level, Seaport Tower

The ASDP Slide Library opens Friday, Oct. 18, at 2 p.m. and will be open 24-hours-a-day through Sunday, Oct. 20, at 11 a.m.

Selected cases from the continuously growing slide library will be available for microscopic examination. Cases are accompanied by the diagnoses and other relevant written information and references. The 2019 Slide Library handout with case summaries, virtual image links, diagnoses with discussion and references will be available to download from the online handout page.

Upon completion of study, participants should be able to:

➜ Explain histologic diagnoses of various skin conditions, including the use of ancillary studies, where appropriate.
➜ Interpret histologic diagnoses of uncommon skin diseases.
➜ Critique cases that highlight diagnostic challenges.
➜ Apply morphological criteria to differential diagnoses of cutaneous lesions.
➜ Develop appropriate differential diagnoses for a wide spectrum of tumors and dermatoses.

Annual Membership Business Meeting and Luncheon

Friday, October 18
12:15 p.m. – 1:15 p.m.
Grand Hall A, Lobby Level

ASDP members are encouraged to attend the Annual Membership Business Meeting and Luncheon on Friday, Oct. 18. The annual report to the membership will be available to meeting participants at the ASDP registration counter upon check-in. Registration is required. Tickets may still be available. Stop by the ASDP Registration Desk, located in the Seaport Foyer on the 2nd level of the Seaport Tower to find out.

Evening Slide Symposium Viewing

Opens Thursday, October 17, at 8 a.m.
Gaslamp D, 2nd Level, Seaport Tower

The Evening Slide Symposium Viewing opens Thursday, Oct. 17, at 8 a.m., and will be open 24-hours-a-day through Sunday, Oct. 20, at 11 a.m.

View the Evening Slide Symposium cases at any time during the annual meeting and attend the Evening Slide Symposium Saturday evening. A short reception will precede the session starting at 7:15 p.m. outside Seaport Ballroom A–E on the 2nd Level of the Seaport Tower.
ASDP Employment Board
*Seaport Foyer, 2nd Level, Seaport Tower*

The official ASDP career center is located on the website at www.asdp.org; however, the Society has an employment board located in the Seaport Foyer on the 2nd Level of Seaport Tower. Meeting registrants can post positions available or resumes for other attendees to peruse. Meeting attendees are responsible for making their own copies.

Dermatopathology Bookstore
*Wednesday, October 16 – Sunday, October 20*
*Seaport Foyer, 2nd Level, Seaport Tower*

Leading publishers in the field of dermatopathology will be selling books and other publications during the ASDP 56th Annual Meeting. Be sure to stop by and view the newest work being published! The Dermatopathology Bookstore will be open during registration hours, in the Seaport Foyer.

**Participating booksellers include:**
Elsevier
Innovative Science Press
Wolters Kluwer

**Bookstore Hours:**
*Wednesday, October 16*
2:00 p.m. – 6:00 p.m.

*Thursday, October 17*
7:00 a.m. – 5:00 p.m.

*Friday, October 18*
6:30 a.m. – 5:00 p.m.

*Saturday, October 19*
6:30 a.m. – 5:00 p.m.

*Sunday, October 20*
6:30 a.m. – 11:00 a.m.
Meeting Program

Faculty Disclosures of Relevant Financial Relationships

In keeping with ACCME standards, the following program faculty stated that they do not have relevant financial relationships that may have a direct bearing on the subject matter of the continuing education activity in which they are participating.

Aleodor A. Andea, MD, MBA
Valeria Aoki, MD, PhD
Phyu P. Aung, MD, PhD, FACP
Soon Bahrami, MD
Boris C. Bastian, MD
Wilma F. Bergfeld, MD, FACP, FAAD
Steven D. Billings, MD
Stephen P. Brady, MD
Thomas Brenn, MD, PhD
Scott C. Bresler, MD, PhD
Alina G. Bridges, DO
Nicole Burkemper, MD
Klaus J. Busam, MD
David S. Cassarino, MD, PhD
Catherine G. Chung, MD
Clay J. Cockerell, MD
Nneka I. Comfere, MD
Lynn D. Cooper, MD
Shawn E. Cowper, MD
Jonathan L. Curry, MD
Mary Devereaux, PhD

ASDP Art Show

Thursday, October 17 – Sunday, October 20  
Seaport Foyer, 2nd Level, Seaport Tower

View the artistic talents of your colleagues!

The Young Physicians’ Committee is sponsoring an event showcasing the artistic talents of the ASDP 56th Annual Meeting attendees. Be sure to stop by and view the exhibition. This multimedia event includes oil and acrylic paintings, watercolors, sculpture, photography, woodcarvings, ceramics, calligraphy paintings, pottery, woodcuts, wood burning and lithography.

“Art evokes the mystery without which the world would not exist.”  
– Rene Magritte
Meeting Program

Program-at-a-Glance

The Plenary Program is open to all meeting attendees and includes:

- Special Topics: Update on Pathology of Melanocytic Tumors
- Hot Topics in Dermatopathology: Practice Pearls, Time Management, and Digital Pathology (formerly the Future Directions in Dermatopathology)
- 20th Annual Duel in Dermatopathology
- Oral Abstract Sessions 1–3
- Four Short Courses
- Hermann Pinkus Memorial Basic Science Course
- President’s Address
- 2019 Elson B. Helwig Memorial Lecture
- Self-Assessment in Dermatopathology Discussion
- Fellows’ Presentations
- Evening Slide Symposium
- Evening Slide Symposium Cases — 24-hour Access
- Two Poster Sessions
- Slide Library — 24-hour Access

The following Optional Program sessions and events require registration and may require additional fees:

- Industry Symposium: Practical Application of Molecular Diagnostics in Melanoma
- Consultations in Dermatopathology
- Virtual Consultations in Dermatopathology
- Self-Assessment in Dermatopathology Slide Viewing Session A, B, C or D
- Annual Society Dinner
- Meet the Program Directors – Residents Only.
Program-at-a-Glance

Wednesday, October 16

All sessions are located on the 2nd Level of the Seaport Tower unless otherwise noted.

*Optional Program – requires separate registration and may require additional fee.

2:00 p.m. – 6:00 p.m.  Registration and Information  Seaport Foyer
Dermatopathology Bookstore  Seaport Foyer
Speaker Ready Room  Seaport Foyer

7:00 p.m. – 8:30 p.m.  Industry Symposium  Grand Hall D, Lobby Level
Practical Application of Molecular Diagnostics in Melanoma
Presented by Myriad

Thursday, October 17

*Optional Program – requires separate registration and may require additional fee.

7:00 a.m. – 5:00 p.m.  Registration and Information  Seaport Foyer
Dermatopathology Bookstore  Seaport Foyer

7:00 a.m. – 7:00 p.m.  Speaker Ready Room  Seaport Foyer
Opens at 8:00 a.m.  Evening Slide Symposium Viewing
Open 24-hours!  Gaslamp D

8:00 a.m. – 11:30 a.m.  Board of Directors’ Meeting  Old Town A/B
8:00 a.m. – Noon  Poster Session 1 Set-up  Seaport Ballroom F–H
ASDP Art Show Set-up  Seaport Foyer

8:45 a.m. – Noon  Special Topics  Seaport Ballroom A–E
Update on Pathology of Melanocytic Tumors
Course Director: Klaus J. Busam, MD

9:00 a.m. – 10:15 a.m.  Consultation 100*  Gaslamp A
Instructive Cases from the UCSF Cutaneous Lymphoma Clinic
Consult Director: Laura B. Pincus, MD

Consultation 101*  Gaslamp B
Mycosis Fungoides, Yes or No?
Consult Director: Alexandra C. Hristov, MD

Oral Pathology Roundtable Review:
Common, Uncommon and Challenging Cases
Consult Director: Richard C. Jordan, DDS, PhD, FRCPath

Consultation 402*  Gaslamp C
Atypical and Malignant Adnexal Neoplasms
Consult Director: David S. Cassarino, MD, PhD
The American Society of Dermatopathology

Program—at—a—Glance (continued)

Sunday, October 20 (continued)

7:00 a.m. – 8:30 a.m. Board of Directors and Committee Chair Roundtable  
Old Town A/B

7:30 a.m. – 8:30 a.m. Oral Abstract Session 3  Seaport Ballroom A-E

8:30 a.m. – Noon Short Course IV  Seaport Ballroom A-E  
Daily Diagnostic Dilemmas: Pearls and Pitfalls from Sign Out  
Course Director: Melissa P. Piliang, MD

8:45 a.m. – 10:00 a.m. Consultation 403*  Gaslamp A  
Basic Alopecia  
Consult Director: Eleanor A. Knopp, MD

Consultation 404*  Gaslamp B  
Introduction to Cutaneous Lymphomas  
Consult Director: David J. DiCaudo, MD

Consultation 405*  Gaslamp C  
Panniculitis and Other Puzzles  
Consult Director: Maxwell A. Fung, MD

10:15 a.m. – Noon Refreshments  Seaport Ballroom F-H

11:00 a.m. – Noon Poster Session 2 Dismantle  Seaport Ballroom F-H  
ASDP Art Show Dismantle  Seaport Foyer

Closes at 11:00 a.m. Slide Library  Balboa A-C  
Evening Slide Symposium Slide Viewing  Gaslamp D

Noon ASDP 56th Annual Meeting Adjourns

ASDP Interactive Case Study of the Month

Do you have an unusual, rare or challenging case? Share it with ASDP!

ASDP is always looking for new cases for the Case Study of the Month. Submit your case for peer review, and it might just be selected as an ASDP Case of the Month.

Visit www.asdp.org/SubmitCase for more information.
Thursday, October 17, 2019

Content in this section includes:

- Special Topics: Update on Pathology of Melanocytic Tumors
- Short Course I: Controversies and Professional Conundrums in Dermatopathology
- Oral Abstract Session 1
- 20th Annual Duel in Dermatopathology Resident Abstract Competition
- Hot Topics in Dermatopathology: Practice Pearls, Time Management, and Digital Pathology
Plenary Program

Special Topics
Update on Pathology of Melanocytic Tumors
(formerly the Mini-Course)

Thursday, October 17
8:45 a.m. – Noon
Seaport Ballroom A–E

3 AMA PRA Category 1 Credits™

Course Director:
Klaus J. Busam, MD
Memorial Sloan Kettering Cancer Center

Formerly the Mini–Course, the Special Topics course is now part of the plenary program. This year’s course will provide updates on melanoma staging from the 8th edition of the American Joint Committee on Cancer (AJCC) staging system and the new WHO classification of melanocytic tumors. The value, limitations and pitfalls of various ancillary methods for the diagnosis of melanoma, including novel immunohistochemical markers, molecular and cytogenetic tests will also be discussed.

Faculty and Course Outline

8:45 a.m. – 8:50 a.m. Introduction
Klaus J. Busam, MD
Memorial Sloan Kettering Cancer Center

8:50 a.m. – 9:10 a.m. The New Classification of Melanocytic Tumors
Iwei Yeh, MD
University of California, San Francisco

9:10 a.m. – 9:30 a.m. The New AJCC Classification of Melanoma
Richard A. Scolyer, BMedSci, MBBS
Royal Prince Alfred Hospital

9:30 a.m. – 9:50 a.m. Neoadjuvant Therapy in Melanoma: The Role of Pathologic Assessment
Michael T. Tetzlaff, MD, PhD
University of Texas MD Anderson Cancer Center

9:50 a.m. – 10:10 a.m. Gene Expression Testing for the Prognosis of Cutaneous Melanoma
Michael A. Marchetti, MD
Memorial Sloan Kettering Cancer Center
### Plenary Program (continued)

### Upon completion of this course, participants should be able to:

- Identify histopathologic parameters of staging primary and metastatic cutaneous melanoma according to the 8th edition of AJCC.
- Demonstrate greater understanding of pathomechanistic basis of the new WHO classification of melanocytic tumors and the proposed new nomenclature in daily practice.
- Expand diagnostic skills with help of novel biologic advances of melanocytic tumors relevant for diagnosis.
- Recognize the value and limitations of molecular techniques and immunohistochemical markers for the diagnosis of melanocytic tumors.
Short Course I
Controversies and Professional Conundrums in Dermatopathology

With Audience Response System

Thursday, October 17
1:00 p.m. – 3:15 p.m.
Seaport Ballroom A–E

Course Director:
Melissa P. Piliang, MD
Cleveland Clinic

2.25 AMA PRA Category 1 Credits™

Don’t miss this highly interactive session with audience response system. Ethical conundrums are frequently encountered in the daily work of dermatopathologists. An expert panel comprised of dermatopathologists, an ethicist and an attorney will discuss ethical dilemmas that may arise during professional interactions, daily sign out and laboratory management. Bring your questions and get ready for an energetic course.

Faculty
Wilma F. Bergfeld, MD, FACP, FAAD
Cleveland Clinic

Mary Devereaux, PhD
University of California, San Diego

Whitney A. High, JD, MD, MEng
University of Colorado

Ifeoma U. Perkins, MD
University of Colorado School of Medicine

John T. Seykora, MD, PhD
Perelman School of Medicine at University of Pennsylvania

Benjamin K. Stoff, MD, MA
Emory University

Upon completion of this course, participants should be able to:

➤ Avoid unethical marketing, laboratory practices and scope of practice issues.
➤ Recognize the implications of unethical behavior in dermatopathology and develop processes to avoid and manage unethical incidents.
➤ Apply best practices in the communication of medical errors and differences of opinion.
➤ Apply ethical and legal principles in professional interactions with colleagues, billing and practice management issues.
### Plenary Program (continued)

**Oral Abstract Session 1**

**Thursday, October 17**  
3:45 p.m. – 5:15 p.m.  
*Seaport Ballroom A-E*

**Course Moderator:**  
Michi M. Shinohara, MD  
*University of Washington*

**1.5 AMA PRA Category 1 Credits™**

Abstracts presented in Oral Abstract Session 1 can be found in the PDF abstract book available for download at www.asdp.org/AM19. Residents and fellows-in-training are eligible for the ASDP Physician-in-Training Awards. Award recipients will be notified by email after the meeting.

</table>

Upon completion of this session, participants should be able to:

- Identify various clinical and basic science topics within dermatopathology.
- Exemplify and promote exchange of new ideas and concepts within the field of dermatopathology.
- Describe innovative investigative studies and tools pertaining to bench and translational research.
- Compare unique pathological perspectives and concepts as they relate to individual and groups of cases.
Plenary Program (continued)

20th Annual Duel in Dermatopathology Resident Abstract Competition

Thursday, October 17
5:15 p.m. – 6:45 p.m.
Seaport Ballroom A–E

Course Moderator:
Ruifeng Guo, MD, PhD
Mayo Clinic, Rochester

1.5 AMA PRA Category 1 Credits™

The American Society of Dermatopathology is pleased to present the 20th Annual Duel in Dermatopathology Abstract Competition for dermatology and pathology residents. This resident forum consists of succinct five-minute presentations. Prizes for first, second and third place will be awarded for the best clinical-pathologic case reports. Presentations will be evaluated on content, form, instructive value to dermatopathology and execution. Award recipients will be notified by email after the meeting. Abstracts presented in the Duel in Dermatopathology Resident Abstract Competition can be found in the PDF abstract book available for download at www.asdp.org/AM19.

Upon completion of this session, participants should be able to:

➜ Expand diagnostic skills by recognizing clinicopathologic entities presented via abstracts.
➜ Utilize and interpret diagnostic clues and techniques identified by literature review of these cases.

ASDP Essentials of Dermatopathology ONLINE SOON!

The ASDP Essentials of Dermatopathology Board Review and MOC Course is moving to an online format with an anticipated launch in 2020. Attend the course director, Dr. Nicole Burkemper’s, update on this transition during Thursday’s Hot Topics in Dermatopathology session starting at 7 p.m. in the Seaport Ballroom.

Visit www.asdp.org/EssentialsCourse for future updates on this robust educational program.
# Hot Topics in Dermatopathology

**Practice Pearls, Time Management, and Digital Pathology**  
(Formerly *Future Directions in Dermatopathology*)

**Thursday, October 17**  
7:00 p.m. – 9:00 p.m.  
Seaport Ballroom A–E

**Course Directors:**  
Catherine G. Chung, MD  
The Ohio State University  
Olayemi Sokumbi, MD  
Mayo Clinic, Jacksonville

**2 AMA PRA Category 1 Credits™**

Attend this informative discussion led by experts who will offer pearls and insights into practice management, career development and new technologies in today’s rapidly changing health care environment. A panel Q&A discussion will follow in which speakers will answer questions from the audience and share further advice.

**Faculty and Session Outline**

Plenary Program (continued)

Hot Topics in Dermatopathology (continued)

Upon completion of this session, participants should be able to:

- Recognize potential practice challenges and apply strategies to avoid them.
- Identify medical errors that may occur in dermatopathology practice and implement process improvements to minimize them.
- Implement strategies to optimize time management skills for successful work-life balance and career development.
- Demonstrate greater understanding of whole slide imaging, its current uses and limitations in diagnostic pathology.

9th Annual Young Physicians’ Reception

Thursday, October 17
9:00 p.m. – 11:00 p.m.
Marina Room & Courtyard, Lobby Level

Dermatology and pathology residents, dermatopathology fellows and dermatopathologists in their first seven years of practice are invited to network with the Hot Topics in Dermatopathology faculty members and other dermatopathology role models at the Young Physicians’ Reception. Hors d’oeuvres and refreshments will be served. Don’t miss this unique opportunity to develop professional relationships with your leaders and peers.
Friday, October 18, 2019

Content in this section includes:

- Short Course II: Practical Clues and Tips
- Self-Assessment Discussion
- Hermann Pinkus Basic Science Course — Beyond Blisters: Basic Science of Autoimmune Bullous Disease
Plenary Program (continued)

Short Course II
Practical Clues and Tips

Friday, October 18
8:00 a.m. – Noon
Seaport Ballroom A–E

Course Director:
Tammie C. Ferringer, MD
Geisinger Medical Center

3.5 AMA PRA Category 1 Credits™

Continuing in the legacy of Dr. Bernie Ackerman’s Clues in Dermatopathology, this course will include expert-presented practical clues, tips and tricks in a case-based manner with periodic opportunities for audience comments and queries of the experts. The course will conclude with practical clues selected from an open call for contributions held earlier this year. These clues were selected based on quality and significance to encompass submission from all facets of our field: young, old, academic, private... These will include clinical, histopathologic and immunohistochemical clues.

Faculty and Course Outline

| 11:52 a.m. – Noon   | **Q & A**                                     |

**Upon completion of this course, participants should be able to:**

- Recognize clinical, histopathologic and/or immunohistochemical clues in diagnosis of various cutaneous diseases to enhance diagnostic skills of inflammatory and neoplastic conditions of the skin.
Self-Assessment Discussion

Friday, October 18
1:30 p.m. – 3:45 p.m.
Seaport Ballroom A-E

Course Director:
Melissa Pulitzer, MD
Memorial Sloan Kettering Cancer Center

2.25 AMA PRA Category 1 Credits™

All meeting attendees are invited to attend the Self-Assessment Discussion. The 50 cases viewed during the slide viewing sessions will be discussed, including diagnostic features of each case and differential diagnoses. Attendees who registered for and attended one of the four identical slide viewing sessions are eligible for up to 10.25 AMA PRA Category 1 Credits™ and CC/MOC credit. Please refer to page 87 for more information.

Self-Assessment Discussion (continued)

Upon completion of this course, participants should be able to:

➜ Recognize key light microscopic features of common, rare and unusual entities.
➜ Differentiate between diseases with similar or overlapping histopathologic findings.
➜ Apply new diagnostic skills to a variety of skin conditions that will improve patient care.
➜ Incorporate new information gained from presented cases into dermatopathology practice.
➜ Recognize areas where new information gained from the presented cases has identified potential practice gaps and changed performance related to the presented cases.
➜ Positively affect patient care with enhanced diagnostic skills in the more common cases likely to be seen in daily practice.
Hermann Pinkus Memorial Basic Science Course
Beyond Blisters: Basic Science of Autoimmune Bullous Disease

Friday, October 18
4:30 p.m. – 6:45 p.m.
Seaport Ballroom A–E

Course Director:
Julia S. Lehman, MD
Mayo Clinic, Rochester

2.25 AMA PRA Category 1 Credits™

This year’s Hermann Pinkus Memorial Basic Science Course will explore the fundamentals of and new insights into the immunology of autoimmune bullous diseases. Major diagnostic categories covered will include pemphigoid, pemphigus and epidermolysis bullosa acquisita. The session will conclude with a discussion of applying basic science concepts to the interpretation of tissue- and serum–based clinical immunodermatology testing.

Faculty and Course Outline

4:30 p.m. – 5:05p.m.  
Pemphigoid  
Donna A. Culton, MD, PhD  
University of North Carolina

5:05 p.m. – 5:40 p.m.  
Pemphigus  
Valeria Aoki, MD, PhD  
University of São Paulo Medical School

5:40 p.m. – 6:15 p.m.  
Epidermolysis Bullosa Acquisita

University of Southern California Keck School of Medicine

6:15 p.m. – 6:45 p.m.  
Practical Tips on Test Interpretation for Autoimmune Bullous Diseases  
Julia S. Lehman, MD  
Mayo Clinic, Rochester

Upon completion of this course, participants should be able to:

- Differentiate pathogenic mechanisms of various autoimmune bullous dermatoses.
- Recognize potential clinical implications of novel insights into the immunology of autoimmune bullous dermatoses.
Saturday, October 19, 2019

Content in this section includes:

- Short Course III: Dermatopathology on the Verge: Current Topics in Mucocutaneous Pathology
- Fellows’ Presentations
- Oral Abstract Session 2
- President’s Address: Teachers and Students
- Elson B. Helwig Memorial Lecture – Zero Deaths from Melanoma: The Critical Role Pathologists will Play to Achieve this Goal
- Evening Slide Symposium
### Plenary Program (continued)

**Short Course III**  
**Dermatopathology on the Verge:**  
**Current Topics in Mucocutaneous Pathology**

**Saturday, October 19**  
**8:00 a.m. – Noon**  
**Seaport Ballroom A–E**

**Course Director:**  
Jon A. Reed, MD  
*Baylor College of Medicine and CellNetix Pathology & Laboratories*

**3.25 AMA PRA Category 1 Credits™**

Diseases affecting mucocutaneous borders bring unique diagnostic and patient management challenges for pathologists and clinicians alike. Many of these challenges arise from differences in the diagnostic criteria, terminologies and staging systems used between mucosal pathology and dermatopathology. This course will focus on these challenges, highlighting important differential diagnoses and the conveyance of clinically relevant information necessary for best patient care.

Plenary Program (continued)

Short Course III (continued)

10:45 a.m. – 11:05 a.m.  Differentiated VIN and Non-sclerotic Lichen Sclerosus
                        M. Angelica Selim, MD
                        Duke University

11:05 a.m. – 11:20 a.m. Basaloid Neoplasms of the Anogenital Tract
                        Priyadharsini Nagarajan, MD, PhD
                        University of Texas MD Anderson Cancer Center

11:20 a.m. – 11:35 a.m. Prognostic Features in Melanomas Arising in the Anogenital Tract
                        Michael T. Tetzlaff, MD, PhD
                        University of Texas MD Anderson Cancer Center

11:35 a.m. – Noon       Mucocutaneous Lymphoproliferative Disorders and Mimics
                        Antonio Subtil, MD, MBA
                        Royal Jubilee Hospital

Upon completion of this course, participants should be able to:

➤ Detect differences in diagnostic terminology and their impacts on clinical management and staging for diseases affecting mucocutaneous sites including the eyelid, lip/mouth and anogenital areas.
➤ Identify clinically relevant differences between various “white lesions” of the oral mucosa.
➤ Describe the immunofluorescence findings in autoimmune bullous disorders of mucosal sites.
➤ Integrate criteria used in the diagnosis of differentiated VIN and in non-sclerotic lichen sclerosus into practice.
➤ Distinguish different basaloid neoplasms of the anogenital region.
## Fellows’ Presentations

**Saturday, October 19**  
1:15 p.m. – 3:15 p.m.  
*Seaport Ballroom A-E*

### Course Moderator:
Leslie Robinson-Bostom, MD  
*Warren Alpert Medical School of Brown University*

### 2 AMA PRA Category 1 Credits™

The Continuing Education and Research Committee has selected 18 of the outstanding submissions in the Fellows in Dermatopathology abstract category to be presented orally. This abstract session will have a mix of case reports, clinical studies and basic science presentations. Fellows are eligible for the ASDP Physician-in-Training Awards. Award recipients will be notified by email after the meeting.

Abstracts presented in the Fellows' Presentations can be found in the PDF abstract book available for download at www.asdp.org/AM19.

Plenary Program (continued)

Fellows’ Presentations (continued)

Upon completion of this session, participants should be able to:

➜ Identify various clinical and basic science topics within dermatopathology.
➜ Exemplify and promote the exchange of new ideas and concepts within the field of dermatopathology.
➜ Describe innovative investigative studies and tools pertaining to bench and translational research.
➜ Compare unique pathological perspectives and concepts as they relate to individual and groups of cases.
Oral Abstract Session 2
Saturday, October 19
3:45 p.m. – 4:45 p.m.
Seaport Ballroom A-E

Course Moderator:
Lynne J. Goldberg, MD
Boston University School of Medicine

1 AMA PRA Category 1 Credit™

Abstracts presented in Oral Abstract Session 2 can be found in the PDF abstract book available for download at www.asdp.org/AM19. Residents and fellows-in-training are eligible for the ASDP Physician-in-Training Awards. Award recipients will be notified by email after the meeting.

Plenary Program (continued)

Oral Abstract Session 2 (continued)

Upon completion of this session, participants should be able to:

- Identify various clinical and basic science topics within dermatopathology.
- Exemplify and promote exchange of new ideas and concepts within the field of dermatopathology.
- Describe innovative investigative studies and tools pertaining to bench and translational research.
- Compare unique pathological perspectives and concepts as they relate to individual and groups of cases.
2019 President’s Address

Saturday, October 19
4:45 p.m. – 5:15 p.m.
Seaport Ballroom A–E

.5 AMA PRA Category 1 Credit™

Rosalie Elenitsas, MD
President
American Society of Dermatopathology

Teachers and Students
This year’s President’s Address will focus on the role of education in dermatopathology and modern medical practice. Whether in an academic institution, private practice or an industry setting, a career in medicine involves lifelong learning. Simultaneously, learners are also educators to medical students, house staff, patients, physician colleagues, family and friends. Every day offers a new opportunity to be an exceptional learner and educator. Who will step up to the challenge? This lecture will offer insights on success, and professional and personal life lessons.

Upon completion of this lecture, participants should be able to:

➜ Gain greater understanding of the various characteristics of successful students and educators, and apply them into daily practice to improve patient care and outcomes.

➜ Recognize how the ever-changing teacher–student relationship extends to all aspects of professional and personal life.
2019 Elson B. Helwig Memorial Lecture

Saturday, October 19
5:15 p.m. – 6:15 p.m.
Seaport Ballroom A–E

1 AMA PRA Category 1 Credit™

The Elson B. Helwig Memorial lectureship is awarded in recognition of excellence in the realm of diagnostic dermatopathology and for significant contribution to the dermatopathology literature and the education of fellows and colleagues.

Richard A. Scolyer, BMedSci, MBBS
Clinical Professor
Royal Prince Alfred Hospital

Zero Deaths from Melanoma:
The Critical Role Pathologists will Play to Achieve this Goal

With the recent transformation in management options for patients with cutaneous melanoma, it is now more critical than ever that we get both the diagnosis and initial management of melanoma patients right the first time. However, the diagnosis of melanoma is often challenging. Furthermore, histopathological parameters are key in determining optimal management strategies at all stages of this disease. This lecture will provide important insights into the diagnosis, classification, histopathological reporting and management of cutaneous melanoma patients in the modern era.

Upon completion of this course, participants should be able to:

→ Recognize the diagnostic histopathologic features of selected melanoma and nevus variants prone to misdiagnosis.
→ Integrate key parameters in melanoma pathology reports to improve patient care and outcomes.
→ Describe evolving concepts in the classification of melanocytic tumors.
Evening Slide Symposium

*With Audience Response System*

**Saturday, October 19**
7:30 p.m. – 9:30 p.m.
*Seaport Ballroom A–E*

**Course Director:**
Julia S. Lehman, MD
*Mayo Clinic, Rochester*

**2 AMA PRA Category 1 Credits™**

In this traditionally popular symposium, a five member panel will present 15 microscopically challenging cases. An in-depth discussion by the panel will focus on the histological and clinicopathological aspects of each case. A relaxed and educationally stimulating atmosphere is planned. Audience participation is encouraged and casual attire is expected.

**Faculty**

Alina G. Bridges, DO
*Mayo Clinic, Rochester*

A. Hafeez Diwan, MD, PhD
*Baylor College of Medicine*

Jennifer S. Ko, MD, PhD
*Cleveland Clinic*

Jeffrey P. North, MD
*University of California, San Francisco*

Vishwas P. Parekh, MD
*City of Hope National Medical Center*

**Upon completion of this course, participants should be able to:**

- Differentiate clinical and histological features of interesting, complex, difficult and rare disorders of the skin.
- Demonstrate an approach toward diagnosis of complex, challenging skin biopsies.
- Recognize important features of challenging cases and generate clinically relevant differential diagnosis.
Evening Slide Symposium Case Summaries

Case 1
A 91-year-old woman presents with a 2–3 month history of xerostomia, fatigue, muscle weakness, difficulty closing her hands, acid reflux disease, and a rash on the upper back and hands.

Case 2
A 63-year-old man presents with a 1-cm dark brown plaque on the right posterior upper arm of unknown duration.

Case 3
A 77-year-old woman presents with a 10-cm ulcerated nodule on the scalp.

Case 4
A 33-year-old woman with rheumatoid arthritis and end-stage renal disease on hemodialysis who presented for evaluation of non-healing, painful, reticulated, purpuric, ulcerated plaques and nodules on the thighs for 4 months.

Case 5
A 31-year-old man presents for evaluation of a 4-month history of mildly pruritic, erythematous plaques on the trunk, groin and upper and lower extremities.

Case 6
A 73-year-old man with a history of rheumatoid arthritis and inclusion body myositis presented with a 3-month history of painful, erythematous, ulcerated nodules on the right thigh.

Case 7
A 49-year-old man presented with a right leg nodule.

Case 8
A 65-year-old man presented with a 6-month history of a lesion on his left forearm.

Case 9
A 45-year-old woman presented with a 5-year history of a growing plantar forefoot lesion, submitted as “rule out pyogenic granuloma.”

Case 10
A 61-year-old male presents with an asymptomatic papular eruption on the trunk and extremities for 3 months.
Case 11
A 67-year-old male with acute myeloid leukemia presents with a solitary enlarging indurated painful plaque on the right forearm for 1 week.

Case 12
A 58-year-old female presents with a 4-cm ulcerated nodule on the right abdomen for 3 months.

Case 13
A 56-year-old female presents with a reddish area on the vulva. A biopsy was derived from the right labia.

Case 14
A 70-year-old male presents with a rash on the left forearm.

Case 15
An 84-year-old male presents with a right heel lesion (one of multiple biopsies).

Short Course IV  
Daily Diagnostic Dilemmas: Pearls and Pitfalls from Sign Out  

Sunday, October 20  
8:30 a.m. – Noon  
Seaport Ballroom A-E  

Course Director:  
Melissa P. Piliang, MD  
Cleveland Clinic  

3.25 AMA PRA Category 1 Credits™  

In this fast-paced, high-yield session a panel of expert dermatopathologists will discuss diagnostic challenges commonly encountered in sign out. This course will cover a wide range of topics including inflammatory dermatoses, alopecias, nail disorders, soft tissue and adnexal tumors, and immunohistochemical stains. Special emphasis will be placed on clues to common and rare entities to facilitate an efficient sign out.

Plenary Program (continued)

Short Course IV (continued)

11:30 a.m. – 11:50 a.m.  Pearls and Pitfalls in the Pathology of Alopecias
Melissa P. Piliang, MD
Cleveland Clinic

11:50 a.m. – Noon  Q & A

Upon completion of this course, participants should be able to:

- Recognize and circumvent common pitfalls in daily sign out of inflammatory and neoplastic entities.
- Identify key features to differentiate challenging soft tissue tumors.
- Outline immunohistochemical work up for challenging adnexal tumors.
- Demonstrate improved diagnostic skills in alopecia, nail pathology and inflammatory skin disease.
Optional Program

» Consultations in Dermatopathology

» Virtual Consultations in Dermatopathology

» Self-Assessment in Dermatopathology

» Annual Society Dinner

» Meet the Program Directors
Industry Symposium
Practical Application of Molecular Diagnostics in Melanoma
_Presented by Myriad_

Wednesday, October 16
7:00 p.m. – 8:30 p.m.
_Grand Hall D, Lobby Level_

_CME credit is not offered for this session._

_Moderators_
Catherine G. Chung, MD  
_The Ohio State University_

Olayemi Sokumbi, MD  
_Mayo Clinic, Jacksonville_

This session will cover the practical application of molecular tools in the setting of histologically ambiguous melanocytic neoplasia. Technologies reviewed will include fluorescent _in situ_ hybridization (FISH), array comparative genomic hybridization (aCGH)/single-nucleotide polymorphism (SNP) and gene expression profiling (GEP). Attendees will gain a basic knowledge of each technology, insights into their benefits and limitations, and an understanding of how to appropriately incorporate these ancillary methods into clinical practice.

_Agenda_

7:00 p.m. – 7:05 p.m. **Welcome and Introductions**

7:05 p.m. – 7:50 p.m. **Technology Overview**  
Klaus J. Busam, MD; Loren E. Clarke, MD; Michael T. Tetzlaff, MD, PhD

7:50 p.m. – 8:15 p.m. **Panel Discussion**

8:15 p.m. – 8:25 p.m. **Q & A**

8:25 p.m. – 8:30 p.m. **Closing Remarks**
Optional Program (continued)

Consultations in Dermatopathology

1.25 AMA PRA Category 1 Credits™ per session

Tickets are required to enter each session.

All Consultations in Dermatopathology rooms are located on the 2nd Level of the Seaport Tower.

All sessions use a 10–headed microscope with a class size of nine. Generally, each session permits 30 minutes of study at individual microscopes followed by 45 minutes of interactive work with the session director.

Thursday, October 17

9:00 a.m. – 10:15 a.m.

## Virtual Consultations in Dermatopathology

1.25 [AMA PRA Category 1 Credits™ per session](#)

Tickets are required to enter each session.

All Virtual Consultations are located in La Jolla A/B on the 2nd Level of Seaport Tower.

The Virtual Consultations last one hour and 15 minutes. Designed for a larger group setting, each session provides a unique opportunity to preview cases in advance of the meeting, and foster discussion in a collegiate environment.

Self-Assessment in Dermatopathology

Course Director:
Melissa Pulitzer, MD
Memorial Sloan Kettering Cancer Center

10.25 AMA PRA Category 1 Credits™
10.25 SAMs
100 MOC SA Question Credits

Be on time – Self-Assessment slide viewing sessions begin on time. Due to the timed schedule of each session, doors will close promptly at start time. Late arrivals will not be permitted. No refunds will be given for sessions missed due to tardiness. No exceptions.

Registered and paid participants will have the opportunity to study 50 challenging slides representing a wide range of inflammatory and neoplastic diseases during one of four identical sessions (A, B, C or D). Separate tickets are required to enter each slide viewing session. Afterwards, all meeting participants will meet in a single Self-Assessment Discussion session in which faculty members will review the diagnostic features of each case, as well as the differential diagnosis.

Course Handouts – The Self-Assessment Case Answers and Discussions – Part 1 PDF handout consists of the 50 cases discussed at the meeting and will be available online to all annual meeting attendees on the annual meeting handout page on the ASDP website upon conclusion of the last slide viewing session. The Self-Assessment Case Answers and Discussions – Part 2 PDF handout consists of the 25 core knowledge cases and will be available online only as part of the post-course self-assessment. Only registered and paid attendees will have access to the Part 2 PDF handout and the post-course online self-assessment.

Post-course online self-assessment – A post-course online self-assessment will be available after the meeting and will include 25 core knowledge cases in addition to the 50 advanced cases studied at the meeting. You must register and pay for the Self-Assessment Course to receive access to the post-course online self-assessment and the Self-Assessment Case Answers and Discussions – Part 2 PDF handout. Self-assessment registrants will receive a link to the post-course online self-assessment by email after the Self-Assessment Discussion on Friday afternoon of the Annual Meeting and will have up to 30 days to complete the activity. Self-Assessment registrants must take the post-course online self-assessment to receive CC/MOC credit for this activity.

CME – Participants will receive 1.5 AMA PRA Category 1 Credits™ for one of the Self-Assessments A–D, 2.25 AMA PRA Category 1 Credits™ for the Self-Assessment Discussion and 6.5 AMA PRA Category 1 Credits™ for completion of the post-course online self-assessment for a total of 10.25 AMA PRA
Optional Program (continued)

Self-Assessment in Dermatopathology (continued)

*Category 1 Credits™.* Participants must complete the post–course online self-assessment in order to claim the remaining CME credit. A CME certificate will be available to print after completing the meeting evaluation online.

**CC/MOC** – The ASDP Annual Meeting post–course online self-assessment offers MOC self-assessment credits to satisfy the American Board of Dermatology (ABD) Component 2 and Continuing Certification (CC) credits to satisfy the American Board of Pathology (ABPath) CC requirements. A CC/MOC certificate will be available to print upon successful completion of the post–course online self-assessment.

**ABD SAs** – The ASDP has been approved by the American Board of Dermatology (ABD) to produce Self–Assessment (SA) activities to satisfy the ABD Maintenance of Certification program Component 2. SA activities are intended to be of value to the practicing dermatologist. ASDP is solely responsible for the content. The ASDP Self–Assessment in Dermatopathology offers up to 100 MOC SA question credits. Participants must take the post–course online self-assessment in order to claim SA points.

**ABPath SAMs** – ASDP is a provider of Self–Assessment Modules (SAMs) for Part II of the Continuing Certification Program of the American Board of Pathology (ABPath). The ASDP Self–Assessment in Dermatopathology offers 10.25 SAMs. Participants must take and pass the post–course online self-assessment with a score of 60 percent or better in order to claim SAMs, and may take the self–assessment as many times as needed to achieve a passing score.

**Schedule**

All slide viewing sessions (A, B, C, and D) will be held in Balboa A–C on the 2nd Level of the Seaport Tower.

**Thursday, October 17**

Meeting Program

Friday, October 18

7:00 a.m. – 8:30 a.m.  
**Session C**  
(Note: This session conflicts with Consultations 200, 201, 202, and Virtual Consultations 4)

10:00 a.m. – 11:30 a.m.  
**Session D**  
(Note: This session conflicts with Consultations 206, 207, 208, and Virtual Consultation 6)

1:30 p.m. – 3:45 p.m.  
**Self-Assessment Discussion**  
*Seaport Ballroom A–E*  
*Open to all attendees*

Upon completion of this course, participants should be able to:

- Recognize key light microscopic features of common, rare and unusual entities.
- Differentiate between diseases with similar or overlapping histopathologic findings.
- Apply new diagnostic skills to a variety of skin conditions that will improve patient care.
- Incorporate new information gained from presented cases into dermatopathology practice.
- Recognize areas where new information gained from the presented cases has identified potential practice gaps and changed performance related to the presented cases.
- Positively affect patient care with enhanced diagnostic skills in the more common cases likely to be seen in daily practice.
Optional Program (continued)

Annual Society Dinner

Friday, October 18
7:30 p.m. – 11:00 p.m.
Seaview, Lobby Level

Rosalie Elenitsas, MD
President
American Society of Dermatopathology

Come together with friends and colleagues!

Join the ASDP President Rosalie Elenitsas, MD, for the Annual Society Dinner. Attend the cocktail hour before dinner where you will rub elbows with the leaders in dermatopathology and reconnect with friends and colleagues. An outstanding dinner follows, giving you the chance to relax and chat. The evening culminates in the award ceremony, where the recipients of the 2019 Founders’ Award and Nickel Award will be honored. These are reasons why the ASDP Annual Society Dinner is one of the most popular events at the annual meeting.

Tickets may still be available. Stop by the ASDP Registration Desk to find out.

This year’s Founders’ Award and Nickel Award recipients are Phillip H. McKee, MD, FRCPath, and Tammie C. Ferringer, MD, respectively. Visit www.asdp.org for Drs. McKee and Ferringer’s biographies, and lists of previous award recipients. All award recipients are recognized in the Annual Report to the Membership.
Meet the Program Directors

Saturday, October 19
6:45 a.m. – 8:00 a.m.
Harbor Ballroom A–C, 2nd Level, Harbor Tower

Are you a dermatology or pathology resident and thinking of applying for a dermatopathology fellowship?

During this session, trainees will have an opportunity to meet program directors from across the country. Participants will move from table to table in a speed networking format, allowing all attendees to get face time with multiple program directors. Attend this session and enjoy your morning coffee with your future program director.

This session is open to dermatology and pathology residents only. Please note, most programs have been filled for the 2020–2021 cycle. This session will be of most benefit to residents who will complete their residency in the 2020–2021 academic year and beyond.

There’s no fee to attend, but registration is required.
CME Tracker

The American Society of Dermatopathology is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians. ASDP designates this live activity for a maximum of 35 AMA PRA Category 1 Credits™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.
# CME Tracker

This form is for your personal tracking only.
All CME claims are completed online.

Corporate Partners and Advertisers
Corporate Partners and Advertisers

The American Society of Dermatopathology gratefully acknowledges the following 2019–2020 Corporate Partners and 56th Annual Meeting Sponsors and Advertisers.

Their generous support makes it possible for us to provide access to educational and scientific events and activities to as many dermatopathologists and dermatopathologists-in-training as possible.

**Platinum Partner**
Myriad

**Gold Partners**
Castle Biosciences
Proscia
Stemline

**Contributing Partners**
Innovative Science Press
Meera Mahalingam, MD, PhD, FRCPath
Raymond L. Barnhill, MD, Garrett T. Desman, MD & McGraw–Hill Education

**Advertisers**
CTA Lab

American Society of Dermatopathology (ASDP) does not endorse any medical product, treatment or service sold by any corporation supporting our organization. Corporate Partnerships are not an endorsement of a company’s product or service and may not be represented by the Corporate Partner as such in any way. The use of the ASDP name and/or logo, or representation of such, without the written consent of the ASDP Executive is strictly prohibited.
The 23 Gene Expression test that provides a more definitive diagnosis in challenging cases

- **EXPERTISE**
  - Over 30,000 lesions tested in the clinical setting
- **VALIDATED**
  - More than 8 publications comprising over 2,000 melanocytic neoplasms
- **ACCURATE**
  - Reported a sensitivity of 94% and a specificity of 96% when compared to clinical outcomes¹⁻²
- **CONFIDENCE**
  - Measured a 56% increase³ in definitive diagnosis and an 80% reduction⁴ in excisions with benign test results³⁻⁴
- **COVERAGE**
  - Covered by Medicare and many commercial insurance providers

---

**The myPath® Melanoma Testing Process**

1. Dermatologist removes a lesion
2. Dermatopathologist determines the ambiguity of the lesion
3. myPath® Melanoma test is performed (0-7 days)
4. myPath test score is incorporated into physician’s diagnosis
5. Dermatologist discusses treatment options with patient
