ASDP 52nd Annual Meeting

October 8–11, 2015
Hilton San Francisco Union Square
San Francisco, California USA

Meeting Program

www.asdp.org
The American Society of Dermatopathology

Hotel Floor Plan

- Dermatopathology Fellowship Training Directors Meeting/Committee Meetings 4th Floor
- Committee Meetings 4th Floor
- Short Courses/Young Physicians Forum/Duel in Dermatopathology/Basic Science Course/Helwig Lecture/Fellows’ Presentation/Oral Abstract Sessions
- Mini Course/Membership Business Meeting and Luncheon/Ballroom Level
- Self-Assessment in Dermatopathology/ASDP Quality and Performance Improvement Program/Slide Library/Ballroom Level
- Evening Slide Symposium Preview/Ballroom Level
- Posters/Lobby Level
- Consultations in Dermatopathology/Ballroom Level
- Registration/Speaker Ready Room/ASDP Art History Show/Dermatopathology Bookstore/ASDP Career Center
Table of Contents

2015 Program Committee

Klaus J. Busam, MD, Chair
Memorial Sloan-Kettering Cancer Center

Steven D. Billings, MD
Cleveland Clinic

Ronald P. Rapini, MD
University of Texas Medical School and MD Anderson Cancer Center

Tammie C. Ferringer, MD
Geisinger Medical Center

Beth S. Ruben, MD
University of California, San Francisco
General Information

Continuing Medical Education

The American Society of Dermatopathology is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians. The American Society of Dermatopathology designates this live activity for a maximum of 35 AMA PRA Category 1 Credits™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

The American Society of Dermatopathology Annual Meeting, Program #254100, is recognized by the American Academy of Dermatology for 35 AAD Recognized Credits and may be used toward the AAD CME Award.

Continuing Medical Education Policy

The American Society of Dermatopathology (ASDP) is accredited by the Accreditation Council for Continuing Medical Education (ACCME). As such, we are required to meet the ACCME’s expectations for our practice of continuing medical education.

It is the policy of the ASDP to ensure balance, independence, objectivity and scientific rigor in all of its educational activities. Faculty participating in and planning the annual meeting must comply with all procedures governing disclosure. The ASDP has implemented a process where everyone in a position to control the content of an educational activity will present evidence-based content, disclose all relevant financial relationships with any commercial interest and discussion of unlabeled/investigational uses of a commercial product. In addition, presentations must be free of commercial bias and any information regarding commercial products/services must be based on scientific methods generally accepted by the medical community. Conflicts were resolved prior to this educational activity. Faculty who refused to disclose relevant financial relationships and discussion of unlabeled/investigational uses of a commercial product would have been disqualified from being a part of the planning and implementation of this CME activity.

Presenters who qualified for the implementation of this activity are required to verbally disclose to the audience, immediately prior to the scientific presentation, any of the relationships mentioned above. Faculty relationships are also disclosed to audiences in this program book.

CME Claims and Verification of Attendance

Important! Attendees will be able to claim their CME credits online via the ASDP website after the meeting. You must submit your CME credit online in order to receive appropriate CME credit. The number of CME credit available for each course is indicated by the course title in this program and on the online CME submission
A CME Attendance Log is included in this book on page 60. An official CME certificate will be available to print immediately after completing the online CME claim form and evaluation. Paper certificates are not mailed.

Appropriate credit for attendance should be ascertained and reported by individual physicians to the particular state or medical society to which he/she belongs. For those registered in the AAD CME Transcript/Award Program, you should log in to the AAD Online CME Transcript Program to enter credits for this AAD Recognized program. ASDP’s AAD program number is 254100.

**MOC Claims and Verification**

MOC credit for the Self-Assessment in Dermatopathology sessions will not be included on the Annual Meeting CME Certificates. Participants must complete the post-course online self-assessment with a 50 percent or better pass rate in order to claim MOC credit for Self-Assessment in Dermatopathology. An MOC certificate will be available to print upon successful completion of the post-course online self-assessment.

MOC and CME credit for the ASDP Quality and Performance Improvement Program will not be included on the ASDP Annual Meeting CME Certificates. Participants must complete the follow-up survey six months after completion of the Quality and Performance Improvement Program at the annual meeting. MOC certificates will be available to print immediately upon completion of the follow-up survey.

**Learning Objectives**

The educational mission of the American Society of Dermatopathology is to teach, aid in the dissemination of knowledge and encourage research to improve the quality of the practice of dermatopathology. The annual meeting is primarily an educational one, offering members, fellows, residents and medical students lectures on current topics in dermatopathology, interactive sessions at the microscope, a self-assessment course, and opportunities for poster and abstract presentations.

After attending the 2015 ASDP Annual Meeting, participants should be able to:

- Develop overall diagnostic skills in dermatopathology following exposure to clinical and histopathological aspects of a broad range of dermatologic diseases.
- Describe recent advances in diagnosing soft tissue pathology and their impact on the practice of dermatopathology.
- Diagnose a wide range of challenging areas of dermatopathology, such as the pathology of the nail and hair follicle/alopecia and develop a practical approach to handling such cases.
- Evaluate relevance and appropriate utilization of innovative diagnostic tools in the investigation of inflammatory and neoplastic dermatopathology cases.
Identify molecular tests for diagnosis and prognosis of cutaneous neoplasms with emphasis on melanocytic, hematopoietic and soft tissue tumors.

Utilize sophisticated technology in the realm of dermatopathology through an informed and fiscally responsible approach.

Outline new scientific dermatopathologic endeavors and discoveries, conveyed by junior and senior colleagues involved in research.

Identify the challenges and rewards of an academic career in dermatopathology though exposure to relevant role models and establishment of fruitful professional connections.

Identify national policies relevant to the practice of dermatopathology and gain awareness of how professionals in the field can influence decision making.

Demonstrate an approach toward diagnosis of various challenging skin biopsies and generate relevant differential diagnoses.

Poster Presentations

Golden Gate, Lobby Level
1.5 AMA PRA Category 1 CME Credit™
1.5 AAD Recognized Credit

Participants will earn 1.5 AMA PRA Category 1 CME Credit™ for each Poster Defense Session attended.

Basic research, practical techniques and new clinical or histopathologic entities will be presented in this traditional and popular format. Posters will be on display in one poster session Thursday afternoon through Sunday morning. Residents and fellows-in-training are eligible for the ASDP Physician-in-Training Awards. Awards will be presented on Sunday morning, 8:30 a.m. – 8:45 a.m., immediately before Short Course IV. See the Program-at-a-Glance for complete Poster Session schedule.

Poster viewing is open from at 1 p.m. Thursday, Oct 8, until 11 a.m. Sunday, Oct 11.

Poster Defense Sessions

The poster defense sessions will provide an opportunity for discussion between poster presenters and attendees. Poster presenters are asked to make every effort to be at their poster during the defense sessions.

Poster Defense:
Friday, October 9: 11: 4:15 p.m. – 5:00 p.m.
Saturday, October 10: 10:00 a.m. – 10:45 a.m.
Golden Gate, Lobby Level

After attending the Poster Defense Sessions, participants should be able to:

Identify practical techniques in dermatopathology.

Name new clinical or histopathological entities.
Slide Library

Opens Friday, October 9, at 4 p.m.
Continental 1-2, Ballroom Level
Curator: Mayo Clinic, Rochester

The ASDP Slide Library opens Friday, Oct. 9, at 4 p.m. and will be open 24-hours-a-day through Sunday, Oct. 11, at 11 a.m.

Selected cases from the continuously growing slide library will be available for microscopic examination. Cases are accompanied by the diagnoses and other relevant written information and references. The 2015 Slide Library handout with case summaries, diagnoses with discussion and references will be available to download from the online handout page.

Upon completion of study, participants should be able to:

➜ Explain histologic diagnoses of various skin conditions, including the use of ancillary studies, where appropriate.
➜ Interpret histologic diagnoses of uncommon skin diseases.
➜ Critique cases that highlight diagnostic challenges.
➜ Apply morphological criteria to differential diagnoses of cutaneous lesions.
➜ Develop appropriate differential diagnoses for a wide spectrum of tumors and dermatoses.

Membership Business Meeting

Saturday, October 10
12:30 p.m. – 1:45 p.m.
Imperial Ballroom, Ballroom Level

ASDP members should attend the Membership Business Meeting luncheon on Saturday, Oct. 10. The annual report to the membership will be distributed to each meeting participant.
Evening Slide Symposium Preview

**Opens Thursday, October 8, at 8 a.m.**  
*Continental 3, Ballroom Level*

The Evening Slide Symposium Preview opens Thursday, Oct. 8, at 8 a.m., and will be open 24-hours-a-day through Sunday, Oct. 11, at 11 a.m.

Preview the Evening Slide Symposium cases at any time during the annual meeting and attend the Evening Slide Symposium Saturday evening.

### ASDP Career Center

*East Lounge, Ballroom Level*

The official ASDP career center is located on the website at www.asdp.org; however, the Society has employment boards located in the East Lounge on the Ballroom Level, near the ASDP Registration Desk. Meeting registrants can post positions available or resumes for other attendees to peruse. Meeting attendees are responsible for making their own copies.

### Dermatopathology Bookstore

**Thursday, October 8 – Sunday, October 11**  
*East Lounge, Ballroom Level*

Leading publishers in the field of dermatopathology will be selling books and other publications during the ASDP 52nd Annual Meeting. Be sure to stop by and view the newest work being published! The Dermatopathology Bookstore will be open during registration hours, near the ASDP Registration Desk.

**Participating book sellers include:**

Elsevier  
Lippincott Williams & Wilkins
Faculty Disclosures of Relevant Financial Relationships

In keeping with ACCME standards, the following program faculty stated that they do not have relevant financial relationships that may have a direct bearing on the subject matter of the continuing education activity in which they are participating.

Annual Award Recipients

2015 Founders’ Award

Lorenzo Cerroni, MD
Associate Professor of Dermatology
Medical University of Graz
Director, Research Unit of Dermatopathology and Dermatopathology Service

Dr. Lorenzo Cerroni attended the Sapienza University in Rome, Italy, graduating with the highest mark in medicine, magna cum laude. Dermatology training at the University of Rome was followed by fellowship training in dermatopathology at the University of Graz, Austria, where he remained on the faculty, becoming Associate Professor of Dermatology as well as Director of the Dermatopathology Service and of the Research Unit Dermatopathology. He has served the International Society of Dermatopathology (ISDP) and the Austrian Society of Dermatopathology as secretary and president, and is associate editor of the American Journal of Dermatopathology. His scientific activity is mainly focused on the fields of cutaneous lymphomas and pseudolymphomas and of melanocytic tumors, and is documented by >1,000 impact factor points, a total of >10,000 citations, and an h-factor of 49. He was the recipient of the 2005 Elson B. Helwig Memorial Lecture Award of the ASDP, and has given several honorary lectures including the 2001 Geoffrey Hunter Oration and 2006 David Weedon Lecture of the Australasian Society of Dermatopathology, and the 2012 Neil Smith Memorial Lecture of the EORTC — Cutaneous Lymphomas Task Force. He has won several prizes, including the prestigious Ferdinand von Hebra Prize of the Austrian Society of Dermatology and the Jean Civatte International Prize for Dermatopathology of the French Society of Dermatology.

Dr. Cerroni has been continuously involved in the education of dermatopathology fellows, dermatology residents and pathology residents for the past 23 years. He has organized two symposia of the ISDP and 10 editions of the Summer Academy of Dermatopathology. He helped establish the European Examination in Dermatopathology organized by the Union of the European Medical Specialties (UEMS) together with the International Committee of Dermatopathology (ICDP), and to develop the European Curriculum for Dermatopathology and the Guidelines for Accreditation of Training Centres. He is presently serving as secretary of the European Examination of Dermatopathology.

The 2015 Founders’ Award will be presented to Dr. Cerroni at the President’s Banquet Friday, Oct. 9.
2015 Walter R. Nickel Award

Philip E. LeBoit, MD
Professor of Pathology and Dermatology
University of California, San Francisco
San Francisco, California

Dr. Philip LeBoit trained in Anatomic Pathology at the University of California, San Francisco (UCSF) and in Dermatopathology at both New York University (under the late Bernard Ackerman, MD) and at New York Hospital-Cornell Medical Center (with N. Scott McNutt, MD). He joined the faculty at UCSF in 1985, and founded the UCSF Dermatopathology Service in 1987, with the goal of bringing academic expertise to a larger patient base than that of traditional university-based dermatopathology sections. In 1989, he initiated a fellowship program in dermatopathology, with the goal of preparing trainees for leadership roles in the field. He remained as program director for almost two decades. In the early ’90s, the first overseas visiting fellows arrived. UCSF’s ACGME-accredited fellows have usually completed two years of training, with the second year enabling specialization or additional expertise so that they graduate with the ability to serve as consultants. Some of the diverse paths that have been taken include work in molecular pathology laboratories, training in clinical study design, and work on the clinicopathologic aspects of cutaneous lymphoma.

The foreign visitors to the program Dr. LeBoit began, have come from every continent, and many have become leading dermatopathologists in their countries. At many times, the multiheaded microscope resembles the United Nations, but everyone gets along. UCSF’s own trainees have been enriched by the expertise that many of the visitors have brought.

Dr. LeBoit’s own investigative work has often involved trainees, and these studies includes the first comprehensive descriptions bacillary peliosis hepatis, the development of the concept of palisaded neutrophilic and granulomatous dermatitis, and the initial description of nephrogenic systemic fibrosis.

Over the years, he has participated in many educational programs in North America, Europe, Asia and Australia, with more than 500 invited lectures in more than 20 countries. He has participated in writing more than 170 peer-reviewed publications, many of which were first authored by fellows, as were some of the 25 book chapters that he contributed to edited texts. His own contributions to the field also include co-editing the dermatology textbook, *Cutaneous Medicine and Surgery*. Another major project for the World Health Organization was editing the WHO “blue book” *Skin Tumors*; a number of the chapters were written by former
trainees. Along with another former visitor, Professor Guido Massi, Dr. LeBoit authored the textbook, *Histologic Diagnosis of Nevi and Melanoma*, published in 2004, with a second edition in 2014. He served as editor-in-chief of the *American Journal of Dermatopathology* from 1997 to 2006, and an associate editor of the *Journal of Investigative Dermatology* 2009-11, and is currently an editor of *Seminars in Cutaneous Medicine and Surgery*. His service to the International Society of Dermatopathology includes membership on the executive committee and terms as secretary-treasurer and president.

The 2015 Walter R. Nickel Award will be presented to Dr. LeBoit at the President’s Banquet Friday, Oct. 9.
## Committee Meetings Schedule

All committee meeting rooms are located on the fourth floor of Tower 3, unless otherwise noted. Committee meeting attendance is by invitation only.

Corporate Partners and Sponsors

The American Society of Dermatopathology gratefully acknowledges the following 2015-2016 Corporate Partners and 52nd Annual Meeting Sponsors.

Their generous support of ASDP makes it possible for us to provide access to educational and scientific events and activities to as many dermatopathologists and dermatopathologists-in-training as possible.

Mark A. Hurt, MD — Physician-in-Training Awards

Myriad Genetics, Inc. — Platinum Partner

ProPath — Hotel Key Card

---

The American Society of Dermatopathology (ASDP) does not endorse any medical product, treatment or service sold by any corporation supporting our organization. Corporate Partnerships are not an endorsement of a company’s product or service and may not be represented by the Corporate Partner as such in any way. The use of the ASDP name and/or logo, or representation of such, without the written consent of the ASDP Executive is strictly prohibited.
Program-at-a-Glance

The Plenary Program courses are open to all meeting attendees. Your full registration to the ASDP Annual Meeting includes:

- Young Physicians’ Forum – Future Directions in Dermatopathology: A Forum for Career Development
- 16th Annual Duel in Dermatopathology
- Four Short Courses
- Hermann Pinkus Memorial Basic Science Course
- 2015 Elson B. Helwig Memorial Lecture
- Fellows’ Case Presentations
- Evening Slide Symposium
- 24-hour access to the Evening Slide Symposium Slides
- Three Oral Abstract Presentation Sessions
- Poster Session
- 24-hour access to the Slide Library

Optional Courses & Events require additional fees and include:

- Consultations in Dermatopathology
- Self-Assessment in Dermatopathology
- Mini-Course: Soft Tissue Pathology
- ASDP Quality and Performance Improvement Program
- President’s Reception & Banquet

Thursday, October 8

*Optional Courses require an additional fee and online registration.*

**Visit the ASDP Art Show**  
**Thursday, October 8 – Sunday, October 11**  
**East Lounge, Ballroom Level**

The Young Physicians’ Committee is sponsoring an event showcasing the artistic talents of the ASDP 52nd Annual Meeting attendees. Be sure to stop by and view the exhibition. This multimedia event includes oil and acrylic paintings, watercolors, sculpture, photography, woodcarvings, ceramics, calligraphy paintings, pottery, woodcuts, wood burning and lithography.

**View the artistic talents of your colleagues!**

> “The most beautiful experience we can have is the mysterious — the fundamental emotion which stands at the cradle of true art and true science.”  
> - Albert Einstein
PLENARY PROGRAM

Short Course I
Literature Update by Experienced Eyes

Thursday, October 8
1:00 p.m. – 3:15 p.m.
Continental 4-6, Ballroom Level

Course Director:
Ronald P. Rapini, MD
University of Texas Medical School and MD Anderson Cancer Center

2.25 AMA PRA Category 1 CME Credits™
2.25 AAD Recognized Credit

Four faculty will review the pathology and dermatology literature for new information of interest to the practice of dermatopathology. They will make their own assessments and there will be time for questions and comments from the audience.

Upon completion of this course, participants should be able to:

➜ Identify various clinical and basic science topics within dermatopathology.
➜ Exemplify and promote exchange of new ideas and concepts within the field of dermatopathology.
➜ Describe innovative investigative studies and tools pertaining to bench and translational research.
➜ Compare unique pathological perspectives and concepts as they relate to individual and groups of cases.

16th Annual Duel in Dermatopathology Resident Abstract Competition

Thursday, October 8
5:15 p.m. – 6:45 p.m.
Continental 4-6, Ballroom Level

Course Moderator:
Janis M. Taube, MD
Johns Hopkins Hospital

1.5 Category 1 CME Credits™
1.5 AAD Recognized Credit

Abstracts presented in the Duel in Dermatopathology oral abstract competition can be found in the abstract PDF book available for download at www.asdp.org/AM15. The American Society of Dermatopathology is pleased to present the 16th Annual Duel in Dermatopathology Abstract Competition for dermatology and pathology residents. This resident forum consists of succinct five-minute presentations. Prizes for first, second and third place will be awarded for the best clinical-pathologic case reports. Presentations will be evaluated on content, form, instructive value to dermatopathology and execution. Abstracts selected to compete in the Duel in Dermatopathology session will be published online in a featured section of the Journal of Cutaneous Pathology (JCP) and on the ASDP website.
### Award winners will be announced at 1:35 p.m., Saturday, Oct. 10, immediately before the Fellows’ Presentations.

Upon completion of this course, participants should be able to:

- Expand diagnostic skills by recognizing clinicopathologic entities presented via abstracts.
- Utilize and interpret diagnostic clues and techniques identified by literature review of these cases.

ASDP Social Buzz Award

This year ASDP will award the Social Buzz Award for the most tweets containing the hashtag #ASDP2015.

To participate, simply tweet over the course of the meeting, and include #ASDP2015 in your tweets. Connect with new people, start conversations, and share new information that you have learned at the meeting with others on Twitter. Participating in the “meeting behind the meeting” broadens your participation to the worldwide community and helps promote the ASDP to those unable to attend the meeting in person.

How to Win:
Award winners will be chosen based on the number of tweets that contain the hashtag #ASDP2015 between 7 a.m. Thursday, Oct. 8, until 5 p.m. Sunday, Oct. 11. You must be a registered attendee of the ASDP 52nd Annual Meeting to participate.

Prize
The winner will receive a $50 Amazon gift card.
Young Physicians’ Forum
Future Directions in Dermatopathology: A Forum for Career Development

Thursday, October 8
7:00 p.m. – 9:00 p.m.
Continental 4-6, Ballroom Level

Course Directors:
Eleanor A. Knopp, MD
Group Health Cooperative and University of Washington School of Medicine

Brian Pollack, MD, PhD
Emory University School of Medicine

2 AMA PRA Category 1 CME Credits™
2 AAD Recognized Credit

All meeting attendees are invited to join us for this informative program focused on career development issues. A variety of topics relevant to early and experienced practicing dermatopathologists will be discussed. This will be followed by a Q&A session in which the speakers will answer questions and share career advice.

Optimal career development requires mentorship, guidance and a skill set that is not typically part of formal training in dermatopathology. In an ever-changing healthcare landscape, it can be difficult to find constructive ways to handle career-related stressors, find work-life balance, incorporate technology in a career enhancing way, and understand important medicolegal issues. Don’t miss this unique opportunity to get advice on these topics from a diverse group of speakers at various stages in their careers.

Faculty and Course Outline
7:00 p.m. – 7:05 p.m. Introductions

7:05 p.m. – 7:25 p.m. Medical-legal Concerns for the Newly Minted Dermatopathologist
Jane Grant-Kels, MD
University of Connecticut

7:25 p.m. – 7:45 p.m. With a Little Help from My Friends (Machiavelli, Dorothy Parker, Gandhi, Churchill and others)
Abdul Hafeez Diwan, MD
Baylor College of Medicine
### Plenary Program (continued)

<table>
<thead>
<tr>
<th>Time</th>
<th>Session</th>
</tr>
</thead>
</table>
| 7:45 p.m. – 8:05 p.m. | **How to Jumpstart Your Career in Dermatopathology with Social Media**  
Jerad M. Gardner, MD  
*University of Arkansas for Medical Sciences* |
| 8:05 p.m. – 8:25 p.m. | **Getting Involved without Getting Overwhelmed**  
Nicole M. Burkemper, MD  
*Saint Louis University School of Medicine* |
| 8:25 p.m. – 8:55 p.m. | **Q & A**                                                                                           |
| 8:55 p.m. – 9:00 p.m. | **Closing Remarks**                                                                                 |

### Upon completion of this course, participants should be able to:

- Recognize and avoid potential medicolegal pitfalls in the practice of dermatopathology.
- Implement psychological strategies for optimizing the practice of dermatopathology and reduce stress.
- Incorporate social media into their careers.
- Employ strategies for getting involved with career enhancing activities in a manner that is not overly burdensome.

### 5th Annual Young Physicians’ Reception

**Thursday, October 8**  
**9:00 p.m. – 11:00 p.m.**  
*Cityscape, 46th Floor, Tower 1*

Dermatopathology fellows and dermatopathologists in their first seven years of practice are invited to network with the Young Physicians’ Forum faculty members and other dermatopathology role models at the Young Physicians’ Reception. Hors d’oeuvres and refreshments will be served. Don’t miss this unique opportunity to develop professional relationships with your leaders and peers.
Short Course II
What’s New in Inflammatory Dermatopathology — How to Make a Rash Decision

Friday, October 9
8:00 a.m. – Noon
Continental 4-6, Ballroom Level

Course Director:
Alina G. Bridges, DO
Mayo Clinic, Rochester

3.5 AMA PRA Category 1 CME Credits™
3.5 AAD Recognized Credit

This course will provide an update on inflammatory dermatopathology covering various topics including pruritic dermatoses, vasculitis, vasculopathy, complex medical dermatopathology, ulcers, autoimmune diseases and drug reactions. The diagnosis of these conditions and their differential diagnosis will be reviewed. A diagnostic approach to these skin conditions will be presented. Clinical pathologic correlation and appropriate laboratory evaluation will be emphasized. The knowledge gained from this course can then be applied to provide optimum care and improve outcomes in this patient population.

Faculty and Course Outline:

8:00 a.m. – 8:05 a.m. Introduction
Alina G. Bridges, DO
Mayo Clinic, Rochester

**Upon completion of this course, participants should be able to:**

- Recognize the various clinical and histopathologic findings in inflammatory skin disorders, including pruritic dermatoses, vasculitis, vasculopathy, ulcers, autoimmune diseases, drug reactions, and complex medical dermatology.
- Formulate a diagnostic approach to the evaluation of inflammatory skin diseases.
- Develop appropriate differential diagnostic considerations and discuss pitfalls to avoid in the diagnosis of these entities.
Oral Abstract Session 2
Friday, October 9
1:30 p.m. – 3:00 p.m.
Continental 4-6, Ballroom Level

Course Moderator:

**Upon completion of this course, participants should be able to:**

- Identify various clinical and basic science topics within dermatopathology.
- Exemplify and promote exchange of new ideas and concepts within the field of dermatopathology.
- Describe innovative investigative studies and tools pertaining to bench and translational research.
- Compare unique pathological perspectives and concepts as they relate to individual and groups of cases.

Be sure to visit this year’s **ASDP Mentorship Awards in Dermatopathology** poster presentations on display in the Golden Gate Ballroom, Lobby Level.
Hermann Pinkus Memorial Basic Science Course

Friday, October 9
3:15 p.m. – 6:30 p.m.
Continental 4-6, Ballroom Level

Course Director:
Beth S. Ruben, MD
University of California, San Francisco

2.5 AMA PRA Category 1 CME Credits™
2.5 AAD Recognized Credit

Our understanding of the mechanisms of dermatologic diseases is ever evolving and expanding, with resultant great impact on our diagnostic and therapeutic abilities. This year, the Hermann Pinkus Memorial Course will center on emerging scientific aspects of neoplastic disorders, including epithelial and melanocytic neoplasms, as well as immunologic elements and pathways of inflammatory skin disease.

Faculty and Course Outline:

3:15 p.m. – 3:45 p.m. Pathways in Cancer and Inflammation Relevant to Dermatopathology: From the Microscope to the Clinic
Jorge R. Toro, MD
National Cancer Institute

3:45 p.m. – 4:15 p.m. Regulatory T-cells in Skin
Michael Rosenblum, MD, PhD
University of California, San Francisco

4:15 p.m. – 5:00 p.m. Refreshment Break

5:00 p.m. – 5:30 p.m. The Evolution of Melanoma from Precursor Lesions
Boris Bastian, MD
University of California, San Francisco

5:30 p.m. – 6:00 p.m. The Genetic Classification of Nevi
Iwei Yeh, MD, PhD
University of California, San Francisco

6:00 p.m. – 6:30 p.m. The Synergy between Histology and Biology in AKs and SCCs
John T. Seykora, MD, PhD
University of Pennsylvania
Plenary Program (continued)

Hermann Pinkus Memorial Basic Science Course (continued)

Upon completion of this course, participants should be able to:

➜ Illustrate the genetic events in the development of nevi and melanoma.
➜ Describe mechanisms in the development of squamous cell carcinoma and how this correlates with histologic assessment.
➜ Discuss the effects of T regulatory cells in skin disease, and newer pathways involved in inflammatory skin disease.

Short Course III

At the Border: Mucocutaneous Pathology

Saturday, October 10
8:00 a.m. – 12:15 p.m.
Continental 4-6, Ballroom Level

Course Director:
Tammie C. Ferringer, MD
Geisinger Medical Center

3.5 AMA PRA Category 1 CME Credits™
3.5 AAD Recognized Credit

Given the accessibility and proximity to the skin, dermatopathologists not uncommonly encounter specimens that cross the border to mucosa. Significant overlap into areas of ophthalmic, oral and genital pathology exists. This course will update dermatopathologists on the newest nomenclature and histopathology of oral, ocular and genital pathology that we may confront.

Faculty and Course Outline:

8:00 a.m. – 8:05 a.m. Introduction
Tammie C. Ferringer, MD
Geisinger Medical Center

8:05 a.m. – 8:30 a.m. Whither Bowenoid Papulosis
Timothy H. McCalmont, MD
University of California, San Francisco

8:30 a.m. – 8:55 a.m. The LAST Project: Polishing the Gold Standard
Teresa M. Darragh, MD
University of California, San Francisco

Primer for Dermatopathologists | Artur Zembowicz, MD, PhD  
Lahey Clinic and Dermatopathology Consultations, LLC |
| 11:05 a.m. – 11:25 a.m. | Non-pigmented Conjunctiva Pathology                   | Michelle Bloomer, MD  
University of California, San Francisco |
| 11:25 a.m. – 11:45 a.m. | Oral Lichenoid Lesions and Selected Inflammatory  
Disorders                                            | Ioannis Koutlas, DDS, MS  
University of Minnesota |
| 11:45 a.m. – 12:05 p.m. | What's in a Name? Variants of Oral and Oropharyngeal  
Cancer                                                 | Richard C. Jordan, DDS, PhD, FRCPath  
University of California, San Francisco |
| 12:05 p.m. – 12:15 p.m. | Q&A                                                   |                                                        |

Upon completion of this course, participants should be able to:

- Recognize the terminology and apply diagnostic criteria used by clinicians and non-dermatopathologists for mucocutaneous sites.
- Identify oral, ocular and genital diagnoses that may present to dermatopathologists.
Fellows’ Presentations

Saturday, October 10
2:00 p.m. – 4:00 p.m.
Continental 4-6, Ballroom Level

Course Moderator:
Julie Reimann, MD, PhD
Miraca Life Sciences

2 AMA PRA Category 1 CME Credits™
2 AAD Recognized Credit

The Continuing Education and Research Committee has selected 18 of the outstanding submissions in the Fellows in Dermatopathology abstract category to be presented orally. Abstract session will have a mix of case reports, clinical studies and basic science presentations. Abstracts presented in Fellows’ Presentations can be found in the abstract PDF book available for download at www.asdp.org/AM15. Abstracts are listed in order of presentation.

**Upon completion of this session, participants should be able to:**

- Identify various clinical and basic science topics within dermatopathology.
- Exemplify and promote the exchange of new ideas and concepts within the field of dermatopathology.
- Describe innovative investigative studies and tools pertaining to bench and translational research.
- Compare unique pathological perspectives and concepts as they relate to individual and groups of cases.
**Plenary Program (continued)**

**2015 President’s Address**

Saturday, October 10  
4:30 p.m. - 5:00 p.m.  
*Continental 4-6, Ballroom Level*

.5 AMA PRA Category 1 CME Credit™  
.5 AAD Recognized Credit

**President:**  
Mark A. Hurt, MD

**Why Origins Matter**

This talk centers on why we refer so often to origins of things: cell of origin, original article, original idea, etc. What do we mean when we use these phrases? Is there something deeper behind the idea of origins? Is the concept misapplied? This talk will be a 30-minute exploration of the issue.

**Upon completion of this lecture, participants should be able to:**

- Consider the meaning of origins and describe how to use them in practice.
- Determine whether origins matter. Could we dispense with the concept? Or, is it a term that is critical to creating ideas and nurturing how we think of diseases in dermatopathology?
2015 Elson B. Helwig Memorial Lecture

Saturday, October 10
5:00 p.m. – 6:00 p.m.
Continental 4-6, Ballroom Level

1 AMA PRA Category 1 CME Credits™
1 AAD Recognized Credit

The Elson B. Helwig Memorial lectureship is awarded in recognition of excellence in the realm of diagnostic dermatopathology and for significant contribution to the dermatopathology literature and the education of fellows and colleagues.

Timothy H. McCalmont, MD
Professor of Pathology and Dermatology
Co-Director of the UCSF Dermatopathology Service
University of California, San Francisco

Diagnostic Dermatopathology: Using Precision, Concordance and Nosology for the Betterment of Patients

Dermatopathology is at a crossroads. The historical use of strictly anatomic diagnostic approaches — with highly varied diagnostic terminology — does not always parallel the clinical situation or evolving molecular insights. The implications of a transforming paradigm will be discussed.

Upon completion of this course, participants should be able to:

➜ Avoid situations in which non-consensus diagnostic approaches serve as an impediment to effective patient care.
➜ Circumvent incidents where non-consensus diagnostic terminology risks confusion in patient care.
➜ Recognize occurrences in which evolving molecular insights challenge traditional slide-based diagnostic approaches.

This clinically oriented lecture began in October 1998 as the “Special Guest Lecture.” On July 31, 2000, the “Special Guest Lecture” was officially named the Elson B. Helwig Memorial Lecture in tribute of Dr. Helwig.

Visit www.asdp.org/AM15 for a list of previous Elson B. Helwig Memorial Lecturers.
Evening Slide Symposium
With Audience Response System

Saturday, October 10
6:00 p.m. – 9:00 p.m.
Continental 4-6, Ballroom Level

Course Director:
Beth S. Ruben, MD
University of California, San Francisco

3.5 AMA PRA Category 1 CME Credits™
3.5 AAD Recognized Credit

In this traditionally popular symposium, a six-member panel will present 18 microscopically challenging cases. An in-depth discussion by the panel will focus on the histological and clinicopathological aspects of each case. A relaxed and educationally stimulating atmosphere is planned. Audience participation is encouraged, via an audience response system, and casual attire is expected. Complimentary soda and snacks will be served.

Faculty:
Anneli R. Bowen, MD
University of Utah

Whitney A. High JD, MD, MEng
University of Colorado

Mai P. Hoang, MD
Massachusetts General Hospital and Harvard Medical School

Jinah Kim, MD, PhD
Stanford University

Philip E. LeBoit, MD
University of California, San Francisco

Thaddeus W. Mully, MD
University of California, San Francisco

Upon completion of this course, participants should be able to:

→ Demonstrate different approaches toward diagnosis of various challenging skin biopsies.

→ Generate clinically relevant differential diagnoses.

→ Differentiate clinical and histological features of interesting, difficult and rare disorders of the skin.
Evening Slide Symposium Case Summaries

Case 1
A 50-year-old man presented with a more than 10-year history of scaly erythematous and crusted plaques on the leg.

Case 2
The patient is a 40-year-old man with a 2-month history of subtle annular erythematous plaques on his left arm. He has recently travelled to the Philippines.

Case 3
The patient is a 68-year-old woman with a 20-year history of progressive atrophic erythematous plaques on the elbows, knees, buttocks, and thighs.

Case 4
A 55-year-old man with a history of diabetes mellitus and myelodysplastic syndrome status post peripheral blood stem cell transplant had a course complicated by pancytopenia and chronic graft vs host disease. The patient was evaluated by dermatology for a non-healing ulcer on arm for three months following a ground level fall.

Case 5
58-year-old woman presents with yellow plaques confined to the bilateral infraorbital tear troughs.

Case 6
A 62 year-old male presented with widespread pink to orange plaques studded with regularly spaced, hyperkeratotic papules located on trunk and extremities. He complained of weakness when walking up stairs.

Case 7
A 51-year-old woman presented with a right back mass.

Case 8
An 86-year-old woman was evaluated for painful hand and feet nodules 3 days after a transcatheter aortic valve replacement.

Case 9
A 2.5-month-old girl presented with a rash that started on the forehead soon after birth, and then spread to the abdomen and back over a period of days. Her parents had no significant medical history.

Case 10
A 77-year-old man presented with a 1.5-year history of violaceous skin lesions on his right cheek and right chest. The erythematous patch on the right cheek initially became darker; however, it remained the same size for one year. Immunohistochemical staining highlighted a CD56+, TCR Beta chain and CD123+ neoplasm.
Plenary Program (continued)

Evening Slide Symposium (continued)

Case 11
A 64-year-old man with chronic lymphocytic leukemia (CLL) underwent unrelated donor allogeneic hematopoietic stem cell transplant. Thirty days after transplant, he developed a widespread erythematous eruption involving greater than 50% of his body and subsequently developed new tender, hyperkeratotic translucent papules on his bilateral palmar aspect, finger creases and fingertips.

Case 12
A 79-year-old male presented with a 3-month history of an enlarging plaque on the right temporal and parietal scalp. The patient was otherwise asymptomatic and denied night sweats, fever, weight loss or other systemic symptoms. Physical examination revealed a 9×9 cm violaceous plaque on the right parietal scalp.

Case 13
An 88-year-old man presented with a skin nodule on the left nasal sidewall.

Case 14
The biopsy is from a 28-year-old woman with a clinical impression of “r/o traumatized nevus.”

Case 15
The biopsy is from a 38-year-old woman who presented with weight loss, oral lesions, and a “rash.”

Case 16
A lesion clinically thought to be a hemangioma was removed from the left antecubital area of a 31-year-old man.

Case 17
A lesion on the chin of a 35-year-old man was submitted by a dermatologist to a dermatopathologist as R/O cyst. The case was then submitted for a consultation, with no additional clinical information.

Case 18
Pigmented patch for one month on the popliteal fossa of a 30-year-old man.

Short Course IV
Questions and Answers
With Audience Response System

Sunday, October 11
8:45 a.m. – Noon
Continental 4-6, Ballroom Level

Course Director:
Ronald P. Rapini, MD
University of Texas Medical School and MD Anderson Cancer Center

3.25 AMA PRA Category 1 CME Credits™
3.25 AAD Recognized Credit

Six faculty will identify questions, especially common ones, which arise in the everyday practice of dermatopathology. Some of the questions will have controversial answers. The audience response system will be used to determine the audience’s opinion about the questions, and then the speaker will review evidence from the literature.

</table>

Upon completion of this course, participants should be able to:

➜ Recognize important questions in dermatopathology and develop correct answers to those problems.
➜ Assimilate the critical thinking required to solve questions in everyday practice of dermatopathology.
OPTIONAL COURSES & EVENTS

Consultations in Dermatopathology

1.25 AMA PRA Category 1 CME Credits™ per course
1.25 AAD Recognized Credit per course

Tickets are required to enter each course.

All Consultations in Dermatopathology rooms are located on Ballroom Level.

All courses use a 10-headed microscope with a class size of nine. Generally, each session permits 30 minutes of study at individual microscopes followed by 45 minutes of interactive work with the course director.

Optional Courses & Events (continued)

Mini Course

Soft Tissue Pathology
Thursday, October 8
9:00 a.m. - Noon
Imperial Ballroom, Ballroom Level

3 AMA PRA Category 1 CME Credits™
3 AAD Recognized Credit

Course Director:
Steven D. Billings, MD
Cleveland Clinic

Be on time – Participants must be on time to this course. Due to high demand and limited space, seats will only be held for 15 minutes after the start of the course. All unclaimed seats will be released to those waiting on a first come, first served basis at 9:15 a.m. No exceptions.

This course will focus on selected difficult areas in soft tissue pathology. The course will focus on six different areas: 1. Pleomorphic cutaneous soft tissue tumors, 2. Nerve sheath tumors and their mimics, 3. Adipocytic tumors, 4. Vascular tumors, 5. Fibrous/fibrohistiocytic tumors, and 6. Tumors of uncertain histogenesis/ Miscellaneous soft tissue tumors.

Faculty and Course Outline
9:00 a.m. – 9:05 a.m.  
Introduction
Steven D. Billings, MD
Cleveland Clinic

9:05 a.m. – 9:30 a.m.  
Pleomorphic Cutaneous Soft Tissue Tumors
Thomas Brenn, MD
The University of Edinburgh

9:30 a.m. – 9:55 a.m.  
Adipocytic Tumors
Rajiv M. Patel, MD
University of Michigan

9:55 a.m. – 10:20 a.m.  
Nerve Sheath Tumors and Their Mimics
Jerad M. Gardner, MD
University of Arkansas for Medical Sciences
10:20 a.m. – 10:45 a.m.  **Vascular Tumors**  
Omar P. Sangueza, MD  
*Wake Forest University*

10:45 a.m. – 11:05 a.m.  **Fibrous/Fibrohistiocytic Tumors**  
Steven D. Billings, MD  
*Cleveland Clinic*

11:05 a.m. – 11:30 a.m.  **Tumors of Uncertain Histogenesis/ Miscellaneous Soft Tissue Tumors**  
Darya Buehler, MD  
*University of Wisconsin*

11:30 a.m. – Noon  **Q&A and Concluding Remarks**

**Upon completion of this course, participants should be able to:**

- Employ diagnostic criteria for selected soft tissue tumors.
- Develop a practical approach to the evaluation and diagnosis of cutaneous soft tissue tumors.
- Apply appropriate ancillary tests in the evaluation of soft tissue tumors, emphasizing a practical and cost effective approach.
Optional Courses & Events (continued)

Self-Assessment in Dermatopathology

Course Director:
Steven D. Billings, MD
Cleveland Clinic

6.5 AMA PRA Category 1 CME Credits™
6.5 AAD Recognized Credits
6.5 SAMs
100 MOC SA Question Credits

Be on time – Self-Assessment sessions begin on time. Due to the timed schedule of each session, doors will close promptly at start time. Late arrivals will not be permitted. No refunds will be given for sessions missed due to tardiness. No exceptions.

Participants will have the opportunity to study 50 challenging slides representing a wide range of inflammatory and neoplastic diseases during one of four identical sessions (A, B, C or D). Subsequently, all participants will meet in a single Self-Assessment Discussion session in which faculty members will review the diagnostic features of each case, as well as the differential diagnosis. You must be registered for one of the Thursday or Friday courses (A, B, C or D) to attend the Discussion session. Separate tickets are required to enter each course.

The Self-Assessment Case Answers and Discussions book is only available online; printed books are not distributed at the meeting. Self-Assessment participants will receive an email with a link to download the Self-Assessment Case Answers and Discussions book upon conclusion of the Self-Assessment Discussion Friday evening. The Self-Assessment Slide Viewing Questions book will continue to be distributed prior to each slide viewing session.

Post-course online self-assessment: A post-course online self-assessment will be available after the meeting and will include 25 core knowledge cases in addition to the 50 advanced cases studied at the meeting. Self-assessment registrants will receive a link to the post-course online self-assessment by email upon conclusion of the Self-Assessment Discussion Friday evening and will have up to 30 days to complete it. Self-Assessment participants must take the post-course online self-assessment to receive SAMs or MOC SA question credits and to claim MOC credit for this activity.

CME – Participants will receive 2 AMA PRA Category 1 CME Credits™ for one of the Self-Assessments A-D, 3.5 AMA PRA Category 1 CME Credits™ for the Self-Assessment Discussion and 1 AMA PRA Category 1 CME Credits™ for completion of
the post-course online self-assessment for a total of 6.5 AMA PRA Category 1 CME Credits™. Participants must complete the post-course online self-assessment with a 50 percent pass rate or better in order to claim the remaining CME credit. A CME certificate will be available to print after completing the online meeting evaluation.

**MOC** – The ASDP Annual Meeting Online Post-course Self-Assessment offers MOC self-assessment credits to satisfy the American Board of Dermatology (ABD) Component 2 and the American Board of Pathology (ABP) Part II MOC requirements. An MOC certificate will be available to print upon successful completion of the online post-course self-assessment.

**ABD SA** – ASDP is a provider of Self-Assessments (SAs) to satisfy the American Board of Dermatology (ABD) Maintenance of Certification program Component 2. The ASDP Self-Assessment in Dermatopathology offers up to 100 MOC SA question credits. Participants must take the post-course online self-assessment in order to claim SA points.

**ABP SAMs** – ASDP is a provider of Self-Assessment Modules (SAMs) for Part II of the Maintenance of Certification program of the American Board of Pathology (ABP). The ASDP Self-Assessment in Dermatopathology offers six and a half (6.5) SAMs. Participants must take and pass the post-course online self-assessment with a 50 percent pass rate or better in order to claim SAMs, and may take the self-assessment as many times as needed to achieve a passing score.

</table>

#### Upon completion of this course, participants should be able to:

- Expand diagnostic skills by increasing familiarity with a variety of skin conditions.
- Recognize key light microscopic features of common, rare and unusual entities.
- Differentiate between diseases with similar or overlapping histopathologic findings.
- Recognize areas where new information gained from the presented cases has identified potential practice gaps and altered performance related to the presented cases.
- Incorporate new information gained from the presented cases into dermatopathology practice.
- Identify and increase diagnostic aptitude of more common cases likely to be seen in daily practice.
ASDP Quality and Performance Improvement Program

Friday, October 9
1:00 p.m. – 3:00 p.m.
Continental 1-2, Ballroom Level

Course Director:
Doina Ivan, MD
MD Anderson Cancer Center

Satisfy ABD MOC Component 4 and ABP MOC Part IV

Be on time – The Quality and Performance Improvement Program begins promptly at 1 p.m. Due to the timed schedule of the session, doors will close at start time. Late arrivals will not be permitted. No refunds will be given for session missed due to tardiness. No exceptions.

IMPORTANT! You must drop off your de-identified glass slides and corresponding de-identified reports for 10 cases that you signed out before 10 a.m., Friday, Oct. 9, at the ASDP Registration Desk, in order to participate. The de-identified session materials must be submitted in an envelope clearly marked with your name and institutional affiliation.

The Quality and Performance Improvement Program will consist of three parts: Parts I and II will be conducted at the annual meeting, followed by Part III approximately six months after the annual meeting.

Part I will begin at 1 p.m. and Part II will begin at 2:15 p.m. Participants may leave the session room upon completion of Part I of the program but must return to the session room by 2:15 p.m. to participate in Part II of the program.

During Part I, each participant will be given 10 de-identified slides and corresponding reports of another participant and will independently review each case at a provided microscope and complete a feedback form about slide quality, accuracy and report quality. The feedback forms will be collected and redistributed to the original participant during the session. During Part II of the program, the original participant will complete a short form describing what they have learned from peer review, what areas they want to improve and how they plan to implement improvements based on their conclusions from the feedback forms.
Optional Courses & Events (continued)

ASDP Quality and Performance Improvement Program (continued)

Approximately six months after completion of the Quality and Performance Improvement Program at the annual meeting, participants will be asked to complete Part III of the program, which will consist of a follow-up survey to determine if participants implemented changes in their daily practice and how the changes improved patient care. MOC Certificates will be issued only to program participants who complete all three parts of the program.

Full participation satisfies the ABD MOC Component 4 requirement for practice assessment/quality improvement, due in years 5 and 10 of the cycle, and ABP MOC Part IV MOC annual diplomate requirement for performance improvement and quality assurance activity.

Program Information-at-a-Glance

➔ Participants must bring 10 de-identified glass slides and corresponding de-identified reports for cases they signed out.
  
  10 cases must consist of:
  ➔ 3 melanocytic tumors, including at least 1 melanoma
  ➔ 3 non-melanocytic tumors
  ➔ 3 inflammatory dermatoses
  ➔ 1 case of your choosing
  ➔ 3 of the above 10 cases must also be special or immunohistochemically stained slides.
  ➔ Slides and reports must be submitted to the ASDP Registration Desk before 10 a.m. Friday, Oct. 9. Materials should be submitted in an envelope labeled with participant’s name.
  ➔ Part I will begin at 1 p.m., followed by Part II at 2:15 p.m. Participants may leave the session room between Part I and Part II, but must return by 2:15 p.m. to complete Part II.
  ➔ During Part I, participants will independently review slides and corresponding reports of another participant, and complete a feedback form on:
    ➔ slide quality
    ➔ diagnostic accuracy
    ➔ report quality
  ➔ Feedback forms will be collected and redistributed to original participants during the session.
During Part II, original participants will review the peer review feedback and complete a short form on what they learned, areas to improve and future plans to implement improvements.

Approximately six months later, participants will receive a follow-up survey (Part III).

Certificates of program participation will be issued only to program participants who complete all three phases of the program (at the annual meeting and the follow-up survey).

Congratulations to the 2015-2016 ASDP Mentorship in Dermatopathology Award Recipients

Optional Courses & Events (continued)

President’s Reception & Banquet

Mark A. Hurt, MD, President

Friday, October 9
7:00 p.m. – 11:00 p.m.
St. Francis Yacht Club
99 Yacht Road
San Francisco, CA USA

6:45 p.m.
Buses depart from the hotel at the Taylor Street door on the Lobby Level for the St. Francis Yacht Club.

This is a ticketed event. Space may be available. Visit the ASDP registration desk for information.

Join President Mark A. Hurt, MD, for the ASDP President’s Reception and Banquet, an elegant evening of dinner and socializing with colleagues.

St. Francis Yacht Club was founded in 1927 by a group of 21 San Francisco Yachtsmen with a vision of opening a club in the city. Today, the St. Francis Yacht Club is one of the most active, influential yacht clubs in the world and among the most prestigious.

The St. Francis Yacht Club has one of the world’s most beautiful settings. The Golden Gate Bridge and the Alcatraz Island sit as the backdrop with the shimmering San Francisco Bay to complement. The St. Francis Yacht Club’s atmosphere and location cannot be beat.
CME Attendance Log

The American Society of Dermatopathology is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians. ASDP designates this live activity for a maximum of 35 AMA PRA Category 1 Credits™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

This form is for your personal tracking only. All claims are completed online.

Is This Melanoma?

Diagnostic Confidence You Can Trust.

Myriad Genetic Laboratories is committed to help answer the pressing question, “Is This Melanoma?” myPath® Melanoma is an adjunctive molecular diagnostic test that has been clinically validated using qRT-PCR technology to measure the expression of 23 genes. A weighted algorithm is applied to the gene signature to generate an easy to interpret result.

myPath Melanoma provides valuable, additive information to accurately and objectively distinguish malignant melanoma from benign nevi.

The clinical validation of myPath Melanoma was published in the Journal of Cutaneous Pathology in March 2015. The validation cohort included a broad spectrum of histopathological subtypes achieving 90% sensitivity and 91% specificity.

Over the past two years, myPath Melanoma has contributed to a more confident diagnosis and change in treatment recommendations for thousands of patients.

To download the clinical validation, visit www.myPathClinicalValidation.com
